

ULTRA-CLEAN 40[®]

Model No. 40250D

Ultra-High Pressure Water Jetting System

Diesel or gasoline engine driven, trailer or skid mounted ultra-high pressure liquid jetting unit.

Model 40250D delivers 10 gpm at 40,000 psi
37.8 lpm 2,800 bar

Pumping Assembly Complete

- NLB Model 40250 pump
- Mechanical lubrication
- Gear-pac
- 100 gallon (379 l) fuel tank*
- 66 gallon (249 l) corrosion-resistant plastic water tank*
- Inlet water filter and strainer
- 50,000 lb. oil-filled pressure gauge with snubber
- Pressure relief/bypass valve
- All necessary plumbing and operating controls
- Air compressor for air powered accessories

Engine is equipped with a air-actuated throttle control which monitors operator demand and adjusts output accordingly. When the operator engages the trigger and closes the dump at the gun, the engine speed increases to a pre-selected

- Specification subject to change without notice •
Patent Pending

point required to provide the necessary pressure and volume. Upon release, all system pressure is relieved and the engine returns to idle.

Trailer Mounting

- Heavy-duty tandem axle design
- 16.5 in. wheels (420 mm)
- Heavy-duty fenders
- Lights and electric brakes
- Size: 7' 6" wide x 6' 9" high x 15' 2" long**
- (2.32 m wide x 2.12 m high x 4.62 m long) approx.
- Weight: 10,900 lbs. (4,950 kg) approx.

Skid Mounting

- Size: 5' 6" wide x 6' 1" high x 16' 8" long
(1.68 m wide x 1.85 m high x 5.08 m long) approx.
- Weight: 10,000 lbs. (4,540 kg) approx.

Optional Accessories

- NCG8400 Rotating Lance & Bi-Mode™ Valve
 - Foot control valves & flex-lances
 - SPIN JET® grate and floor cleaner
 - Assorted cleaning nozzles, including tube and pipe
- ** Excluding tongue

All Units Are Factory Tested Before Shipment
